

BSL™

Baby safety lock

WINDOW RESTRICTOR for PVC windows

WINDOW RESTRICTOR

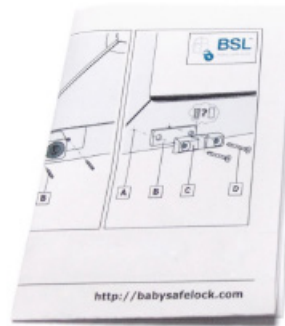

for PVC windows Baby safety lock

Benefits of the window restrictor BSL:

- Child safety ensured.
- Extra burglary protection.
- Fits all types of reinforced plastic and wooden constructions regardless of hardware and profile types.
- Easy installation: no special skills or service calls needed.
- Only window turning function is restricted, while ventilation mode is possible when the window is locked.
- Provided with two keys in a set. A red key holder will signal you that the key is left in the lock.
- Each time you want to open the window unlocking is not needed; unlike with the window handle lock.
- One key can be used for all the locks.
- Compact size and aesthetic look.
- High-quality materials: 5-year warranty.
- Set: lock, strike, plastic shim, two keys, four 45 mm self-drilling screws, carbon pencil marker, and installation instruction.
